Today's team for tomorrow's network.

TRUSTED | VERIFIABLE | INVESTED

We're Leading the World's Most Advanced, Secure IT Missions

The Leidos NGEN-R SMI&T Team unites Leidos — a FORTUNE 500® information technology, engineering, and science leader — with IBM, Verizon, and Unisys to provide the trusted, verifiable, and invested expertise essential to integrating a modernized network for the U.S. Navy's Next Generation Enterprise Network (NGEN)-R SMI&T program.

THE LEIDOS TEAM — COMMERCIAL BEST PRACTICES AND TRUSTED GOVERNMENT EXPERTISE

By combining commercial best practices and leading-edge technologies with a deep understanding of the defense sector's most complex challenges, the Leidos Team brings vast security engineering, CND, and enterprise IT transformation experience. Our focus is on vigilance, vetting, and efficiency — uniting forces and bringing decades of expertise leading large-scale, secure public sector and government networks and mission-critical programs to bear on every aspect of NGEN-R SMI&T.

- ▶ **Leidos** is the largest government systems integrator and top provider of IT services and technical solutions to the U.S. Government. For nearly 50 years, our capabilities have helped Sailors achieve global mission success and provide transformational impact for the U.S. Navy.
- ▶ **IBM** has 51 cloud data centers around the globe and provides customers maximum flexibility of structuring cloud application environments and provides commercially proven expertise for advising which Commercial, Private or Hybrid cloud structure to deliver the best business capabilities.
- ▶ **Verizon** offers Private IP service in 150 countries/territories, including over 1,400 Provider Edge devices in more than 170 markets, and over 15,000 customer VPNs and 340,000+ sites. Verizon also manages over 4,000 customer networks, and more than 400,000 security, network and hosting devices in 150+ countries.
- ▶ **Unisys** successfully transitioned and is now providing a full range of IT support services to 1.4 million U.S. Army users via the Army Enterprise Service Desk contract.

Leidos is ranked #1 on Washington Technology's 2017 list of Top 100 Government Contractors

IBM's Watson™ — at the core of its cognitive technology — reached 1 billion customers in 2017

Verizon is a leader in Gartner's 2017 Magic Quadrant for Network Services; Unified Communications as a Service; and Managed Security Services, Worldwide

Unisys ranked Highest in "Ability to Execute" in the 2018 Gartner Magic Quadrant for Workplace Services, North America

VERIFIED TECHNOLOGY LEADERS, ADVANCED SOLUTIONS AND UNCOMPROMISING SERVICE

The Leidos Team is comprised of some of the world's most highly acclaimed technology innovators and award-winning service providers. Our collective track record demonstrates our unwavering commitment to ensuring seamless, secure, and scalable solutions designed to help our military leaders stay ahead of threats and achieve their missions.

- ▶ **Leidos** is supporting the maintenance, operation, and modernization of a worldwide DOD data network with more than 3 million users. Our experts are supporting end users and warfighters on every continent, every day. Leidos was also recently recognized as a Thomson Reuters 2018 Top 100 Global Technology Leader, taking top marks in the innovation portion of the scoring methodology. The ranking identifies the technology industry's top financially successful and organizationally sound organizations.
- ▶ **IBM's** cognitive systems augment human intelligence, allowing faster and more informed decisions. IBM is the leader in enterprise cloud and is experienced in all aspects of migration and adoption of cloud services in support of IT transformations. IBM's cloud is a catalyst for innovation, speed and new applications allowing enterprises to innovate instantly.
- ▶ **Verizon** developed — and now uses — automation to help federal customers transition to new contract vehicles and transform their IT. Verizon's suite of security solutions can support everything from assessing current protocols and vulnerabilities to providing ongoing monitoring and maintenance of security programs.
- ▶ **Unisys** is a recognized market leader in Workplace Services by ISG and NelsonHall. Unisys delivers large-scale client solutions in travel and transportation, border security, and government services.

INVESTED IN OUR CUSTOMERS' MISSIONS — AND THEIR SUCCESS

The Leidos Team has the breadth, depth, and understanding essential to helping the U.S. Navy protect what's most important and achieve its NGEN-R SMI&T goals. Our acumen and mission understanding; combined multi-billion R&D budget; and enterprise IT services, modernization, and integration leadership enable the Leidos Team to help the U.S. Navy prepare for what's next. From sea floor to cyberspace, 24/7/365, we're uniquely positioned and determined to help keep our Sailors, our nation, and its citizens safe.
