

MEDITECH Expanse Implementation Services

Transform Your Organization with MEDITECH Expanse and Leidos Health

MEDITECH developed the Expanse platform to enable organizations to deliver a connected patient journey across the continuum of care. Similarly, Leidos Health has designed our approach to Expanse implementations to ensure your team achieves that goal. As a certified MEDITECH Expanse (Levels 1-4) consulting firm, we have a proven track record working with MEDITECH and our customers to bring expertise, robust tools and methodology, and services that help you get the most from your Expanse system investment.

Expertise and Value for your MEDITECH Expanse System

Whether your objective with Expanse is to ensure quality care and outcomes, drive financial performance, empower care teams, or improve patient engagement, Leidos Health can help you meet your goals. We're committed to your success, and to helping you achieve optimal outcomes with your Expanse system. Working with our team allows you to:

Establish a Foundation for Implementation Success

We work closely with your leadership team to build a framework for organizational success.

- ▶ Foundational Leadership Work Session helps educate and gain leadership consensus on the future state vision and key success factors for your implementation
- ▶ Pre-Implementation Assessment determines your current system efficiency, and identifies opportunities for improvement

Maximize the Value of Your Expanse System with our Experience and Expertise

We have proven 6.x experience and expertise to help you successfully navigate implementation challenges.

- ▶ Our approach provides transparency and collaboration through every phase of the implementation
- ▶ We draw on our extensive experience delivering more than 1,675 unique MEDITECH engagements to more than 200 provider organizations, from small community hospitals to large IDNs

Leverage Advanced Project Management Support to Drive Results and Minimize Risk

We provide a suite of methodology, tools, templates and best practices to keep your implementation on track.

- ▶ Our exclusive strategy and project management tool includes a master project plan, detailed application project plans, customized roadmaps, status dashboards, and real time views of critical milestones and risks

Accelerate Clinician and Physician Adoption for Improved User Satisfaction

We help empower your care teams to be successful with Expanse, while staying focused on providing patient care.

- ▶ Our consultants understand clinical workflows, clinician needs, and Expanse software
- ▶ We provide training, e-learning, and elbow support that greatly improve CPOE and PDoc adoption
