

Training Services

Flexible, Layered Approach to Training

Security & Detection Systems

Worldwide training held in our training centers or at your facility. World-class training provides quality and satisfaction. This allows customers to fully utilize L-3 products while achieving maximum efficiency.

Flexible, Layered Approach

L-3 SDS's mission is to provide world-class training services and exceed customer's growing and changing needs. Our guiding principles are:

- Commitment to total customer satisfaction
- Teamwork
- Respect for the individual
- High standards of integrity
- Flexible training options
- Experienced, enthusiastic instructors

Flexible Training Options

We offer a broad range of courses for operations, maintenance and engineering personnel in a variety of formats to meet individual customers' needs.

- Instructor-led classes at an L-3 SDS facility
- Instructor-led classes at your site
- Specialized seminars
- Custom courses
- Web-based learning
- Train the trainer programs

Training Classes

Training can be accomplished through different approaches in all product lines. Customized classes suit any customer's needs.

- Corrective maintenance training
- Operator training onsite
- Customized training onsite
- Preventive maintenance training
- Computer-based operator training

Training Center Locations

Worldwide training facilities allow customers a hands-on experience. There are four training centers.

- USA
- Oman
- UK
- Singapore

Benefits of L-3 SDS Factory-Based Training

SDS factory training classes immerse students in a dedicated training environment, away from work distractions.

- No downtime for customer production tools
- Small classes (maximum 6 students)
- Hands-on experience and focused instruction time
- Dedicated L3 training unit with the most recent hardware and software
