Alliant 2, A Government-Wide Acquisition Contract (GWAC)

INTRODUCTION
Alliant 2 is the General Services Administration’s (GSA) premier enterprise IT GWAC. This multiple-award, indefinite-delivery, indefinite-quantity (IDIQ) vehicle provides flexible access to customized IT solutions from a large, diverse pool of industry partners.

Alliant 2 is a preferred government-wide solution, offering artificial intelligence (AI), Autonomic Computing, robotic process automation (RPA), and other types of emerging technologies. It provides best-value IT solutions to federal agencies, while supporting small businesses via subcontracting requirements for large business.

BEST IN CLASS
OMB named Alliant 2 GWAC a Best-in-Class for Information Technology Solutions.

- Allows acquisition experts to take advantage of pre-vetted, government-wide contract solutions
- Supports a government-wide migration to solutions that are mature and market proven
- Assists in the optimization of spend, within the government-wide category management framework
- Increases the transactional data available for agency level and government-wide analysis of buying behavior

OUR CAPABILITIES

- CYBER OPERATIONS
  We use intelligent automation and AI/ML-driven analytics, combined with our experience in detecting and mitigating complex security breaches and threat actors, to deliver full-spectrum cyber solutions and protect and defend the nation’s largest and most attacked mission-critical networks.

- DIGITAL MODERNIZATION
  We develop mission-focused solutions to accelerate our customer’s digital transformation objectives by delivering resilient enterprise IT solutions and managed services that leverage trusted AI and full-spectrum cyber to decrease burdens and vulnerabilities in complex IT operations.

- INTEGRATED SYSTEMS
  Built on the foundations of agility, modularity, extensibility, and open standards, we deliver high-performing hardware and software systems to solve challenges in an array of specializations, including sensors and collection, virtual training, cargo inspection, electronic warfare, and autonomy.

- MISSION SOFTWARE SYSTEMS
  Through disciplined processes, common tools, reusable frameworks, automation, collaboration, and domain expertise, our mission software systems are designed to deliver secure, mission quality software at Silicon Valley speed.

- MISSION OPERATIONS
  Enabled by agile, flexible, and scalable processes and tools, we leverage our in-depth domain knowledge and mission understanding to provide cost-effective tools and enhanced processes that are secure, resilient and support our customer’s critical missions.
## ALLIANT 2 FEATURES AND BENEFITS

<table>
<thead>
<tr>
<th>Features</th>
<th>Benefits</th>
</tr>
</thead>
<tbody>
<tr>
<td>A $50 billion dollar program ceiling and a five-year base period with one five-year option</td>
