

Find Your Next Challenge

Better healthcare means better lives for everyone. At Leidos, we're working from bench to bedside to transform patient care. Whether it's integrating health IT systems, groundbreaking discovery in biomedical research or supporting the wellness of our service members and their families, Leidos is redefining the future of healthcare to make the world a healthier place.

We're hiring for a variety of positions, to include **software developers, scientists, engineers, epidemiologists, behavioral health counselors** and many other disciplines for vital programs across our health business. We offer competitive compensation and enhanced benefit plans.

Recognized as a **best place to work**, Leidos is committed to the highest standards of ethics, social responsibility, and career growth and advancement.
