# Darrell Graddy

CHIEF OPERATING OFFICER LEIDOS UK

---

Darrell Graddy is the Chief Operating Officer of Leidos UK driving improvements to both internal and Leidos UK customer environments. Darrell most recently served as senior vice president (SVP) of operations support for Consolidated Nuclear Security (CNS) in the USA. CNS is responsible for the management and operations of the Pantex Plant in Amarillo, Texas, and the Y-12 National Security Complex in Oak Ridge, Tennessee (\$23B/10yrs contract). As the Operations Support SVP, Graddy had management responsibility for over 2,300 employees performing enterprise planning and controls, Engineering, IT & Cyber, critical facilities and infrastructure maintenance and recapitalization projects construction management, and supply chain management operations.

Before joining CNS, Graddy served as a Deputy & Vice President of Civil Operations of Lockheed Martin Information Systems & Global Solutions. There he led an organisation of 4,500 employees, who delivered advanced information technology, cyber security, logistics and mission solutions to over 85% of the US Federal Agencies, as well as international government customers in Australia and the United Kingdom, with a total annual revenue of over \$5 billion.
