

Sentinel

ENHANCING C5ISR MISSIONS AT GLOBAL SCALE

Sentinel is a \$1.51B task order to accelerate command, control, computers, communications, cyber, intelligence, surveillance, and reconnaissance (C5ISR) innovation across all technology readiness levels, stood up by the Office of the Secretary of Defense (OSD) and sponsored by the National Security Innovation Network (NSIN). As the single prime awardee for the task order, Leidos enables rapid insertion of technologies across the mission spectrum to support warfighters in maintaining a technical high ground and decision advantage.

The Sentinel task order is multi-tenant, designed to be used by DoD or non-DoD customers for a range of C5ISR needs. The value proposition for putting work on this contract is threefold:

Broad scope

C5ISR solutions across all technology readiness levels (TRLs) from R&D to O&M, including technology insertion, engineering, fielding support, PED/intelligence analysis, cybersecurity, and training.

Quick & easy to use

The average timeframe from TDL issuance to project kickoff is < 30 days. Putting funds on contract involves sending MIPR and Technical Direction letter only (the contract is already competed and does not require a sole source justification).

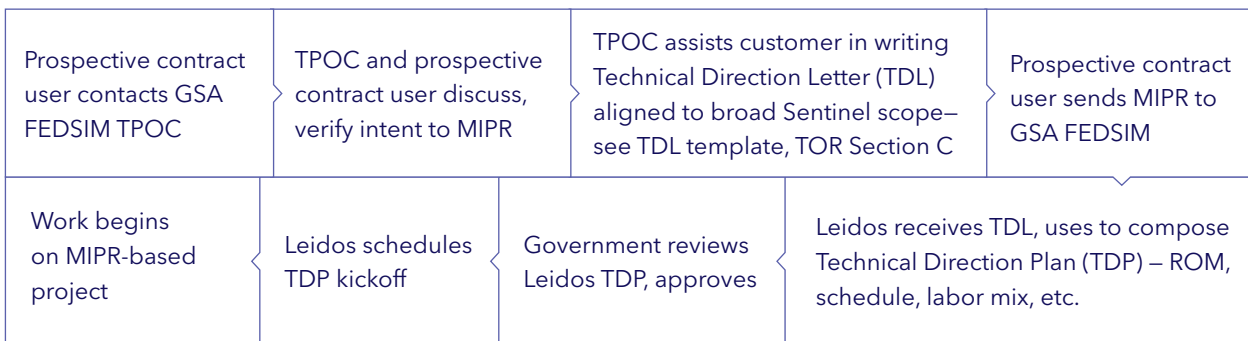

Project level controls & efficiency

The Technical Direction Letter states the project requirements and specifications. After project kickoff, the funding customer supports performance monitoring and GSA/FEDSIM handles the day-to-day administration.

Sentinel Task Order Details (Contract No. 47QFCA22F0051)

Scope	<ul style="list-style-type: none"> • C5ISR, all TRLs from R&D to integration to operational support • PED / intel analysis • Cybersecurity • Training
Ceiling, Period of Performance (PoP)	<ul style="list-style-type: none"> • \$1.51b ceiling • PoP: Sept. 2022 - Sept. 2027
Type/Structure	<ul style="list-style-type: none"> • Single award task order under OASIS IDIQ - Leidos awarded as prime • Multi-tenant - available for potential use by Government Mission Partners with requirements that are within the Task Order scope
Fee	<ul style="list-style-type: none"> • CPAF labor; CPFF on ODCs; M&E • 0.1% CAF fee • FEDSIM/GSA fee for assisted acquisition services
Funding Type	<ul style="list-style-type: none"> • Can ingest any type of funding including FMS • Funding placed on contract through Technical Direction Letters tied to MIPRs
Classification	<ul style="list-style-type: none"> • Work can be performed at any classification level • Ability to "firewall" at project level if needed
Acquisition Office	<ul style="list-style-type: none"> • FEDSIM GSA facilitating full lifecycle acquisition management (https://www.fedsim.gsa.gov)
Anchor Customer	<ul style="list-style-type: none"> • OSD R&E National Security Innovation Network (NSIN) (https://www.nsin.mil)
Contract Action Type	<ul style="list-style-type: none"> • Sentinel task order already competed under OASIS IDIQ, awarded to Leidos • All funds placed on Sentinel count as competed contract actions

Rapid Process for Placing Work Orders on Contract

30-45 DAYS
FOR ENTIRE CONTRACT PROCESS

Potential Government Mission Partners may contact GSA/FEDSIM to inquire about use of the Sentinel task order.
