

Alliant 3, A Government-Wide Acquisition Contract (GWAC)

INTRODUCTION

Alliant 3 is the General Services Administration's (GSA) premier Enterprise IT GWAC. This multiple-award, indefinite-delivery, indefinite-quantity (IDIQ) vehicle provides flexible access to customized IT solutions from a large, diverse pool of industry partners. Alliant 3 is a preferred government-wide solution, offering artificial intelligence (AI), distributed ledger technology (DLT), robotic process automation (RPA), and other types of emerging technologies. It provides best-value IT solutions to federal agencies, while supporting small businesses via subcontracting requirements for large business.

LEIDOS CAPABILITIES:

▶ ARTIFICIAL INTELLIGENCE

At Leidos, AI is engineered for outcomes and backed by decades of delivery. For more than twenty years, we've advanced and applied AI across defense, intelligence, health, and civil sectors. We build and deploy proven AI systems that improve performance, strengthen decision-making, and deliver measurable results.

▶ CYBERSECURITY

We combine threat insight, applied AI, and real-world operator experience to anticipate and disrupt adversarial activity. We deliver integrated offensive, defensive, and resilience capabilities — supported by research and workforce development — to help agencies stay secure and mission-ready.

▶ DIGITAL MODERNIZATION

Leidos delivers digital transformation for government missions with practices spanning resilient network, defensive cyber, secure cloud and data center, application modernization, enterprise digital experience, and information advantage.

▶ MISSION SOFTWARE

Our team builds secure software that connects sensing, data, and decision-making into a clear operational picture. This helps users see what matters, decide faster, and act with confidence.

ALLIANT 3 FEATURES AND BENEFITS:

Features	Benefits
No program ceiling and a five-year base period with one five-year option	Allows for long-term planning of large-scale program requirements
Scope aligned with Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DODEA)	Conforms to OMB policy mandates for IT investments and is consistent with the current IT definition at any given time
All contract types, e.g., fixed-price, cost-reimbursement, labor-hour and time-and-materials	Offers flexibility of contract types for optimal risk mitigation
Ancillary support permitted when it is integral to and necessary for the IT services-based outcome	Facilitates integrated IT solutions
Access to exceptionally qualified industry partners	Enables innovative solutions from experienced providers
Aggressive subcontracting goals set at 50% of subcontracted dollars	Provides subcontracting opportunities for small businesses.
Pre-competes, easy-to-use contract with streamlined ordering procedures based on FAR 16.505	Saves time and money by reducing procurement lead time
Complimentary scope-compatibility reviews	Promotes contract compliance and reduces risk of adverse audits
Requires fair opportunity under FAR 16.505	Ordering Supports competition among highly qualified Industry Partners
No protests on orders \$10 million and under; except on the grounds that the order increases the scope, period of performance, or maximum value of the GWAC	Minimizes protest risk and supports timely order award for optimal mission support
